25X1

1. An excavation about 50 meters long, 50 meters wide, and 12 meters deep has been blasted and dug at the Pirna-Sonnenstein Compound. 25X1
25X1
a fuel storage tank for highly explosive material is to be installed in the hole. Work was in progress in September 1955 on a second excavation for an underground storage installation.

2. 25X1
an institute for nuclear physics is to be set up in the Pirna-Sonnenstein compound. The compound is allegedly to be developed into a center for East German research and development. Closest cooperation with Soviet experts is to take place, and documents and working papers are to be exchanged between Soviets and East German scientists.
